Many people do juice fasts for cleansing. However, often when people fast they take in small amounts of liquid/calories, the metabolism slows, their energy slumps, and they may feel quite ?dysfunctional?.

Juice FEASTing works differently.

On a Juice Feast, you consume at least 1 gallon/4 litres of fresh raw juice, daily. All of your calorie needs for the day are met by this abundance of juice, so you can go about life as normal. At the same time, your body gets to work on powerful cleansing of your whole system, as you give it a break from digesting solid foods.

Because all your calorie needs are being met on a Juice FEAST, you can safely and easily juice for much longer than on a traditional ?fast? ? up to three months if you choose. This means you can cleanse your system much more deeply and thoroughly, while still leading a fully functional life of work, play and rest.

Learn how I Juice Feasted successfully and safely for 92-Days and how by following the insightful guidance in this e-book, you can do the same?

This E-Book was written following my own epic 92-Day Juice Feast completed in February 2007. It was a phenomenal experience for me: I released huge amounts of old waste matter and toxins, lost around another 18lbs, my skin became vibrantly clear and healthy, my eyes deepened in colour and I felt amazing energy.
